

A visionary leader in global workforce solutions, IT consulting, and Business Advisory Seshadri has been recognized for his outstanding contributions to the industry. Featured & Awarded by Forbes, Fortune, Entrepreneur Outlook and ET Now, he has earned prestigious accolades, including CEO of the Year, Global Entrepreneur and the Asian Excellence Award, at the London Parliament

Seshadri Vangala

Seshadri serves as the Chairman and Group CEO of a portfolio of companies, including SGlobal B.V., a global business advisory and solutions firm headquartered in the Netherlands, and IFIN Global Group, an international IT consulting and workforce solutions provider with offices in the US, Canada, UK, Hong Kong, Brazil, Japan, the EU, and India.

He has also served as a brand ambassador promoting the Global and India (Bharat) Corridor, championing trade and societal impact initiatives that have been recognized by multiple governments, including the UK, EU, US, and India. His tireless efforts have earned him praise from past Prime Ministers, Senators, and diplomats worldwide.

Seshadri is an alumnus of London Business School (UK), XLRI (India), and holds a Bachelor's degree in Mechanical Engineering from Andhra University (India). Over the years, he has received numerous national and international accolades for his contributions to business and society. Notably, he was selected as the sole Indian undergraduate to attend the International Conference on Agile Manufacturing.

A true global citizen, Seshadri brings over 25 years of experience across three core pillars: Talent, Technology, and Transformation. He is driven by a visionary goal to disrupt the Human Capital Solutions space, aiming to create a lasting societal impact. Seshadri has held senior leadership roles in global talent management with leading companies like Hewlett Packard, HCL, and Deloitte. He has also been a key figure in building organizations from the ground up, rapidly scaling them into multi-million-dollar global enterprises.

Seshadri has been an active founding member and contributor to several high-impact global forums and is a frequent keynote speaker at prestigious venues such as the UK and EU Parliaments and G20/G20S20 summits. His work is closely aligned with the United Nations' Sustainable Development Goals (SDGs), advocating for One World, One Family, One Future. He is also committed to leveraging exponential technologies, such as AI, ML, NLP, and Quantum Computing, to create a better future for the planet.

In addition to his business achievements, Seshadri is a passionate philanthropist, dedicating time to initiatives focused on underprivileged child education, skills development, and job creation.

On a personal note, Seshadri is the proud owner of his four-legged companion, Leo. He resides in India with his wife, Mrs Manjula, a successful businesswoman in her own right. Their daughter, Ms Sriya, is currently pursuing a Global BBA at Essec Business School and aspires to follow in the footsteps of her accomplished parents.
